## **Is There Such Thing as a Guaranteed Love Spell? Thoughts on desperate love spells, etc...**

There are more love spells than any other types of spells. Love is one emotion that no human being (or animal for that matter) can do without. There are many types of love spells:

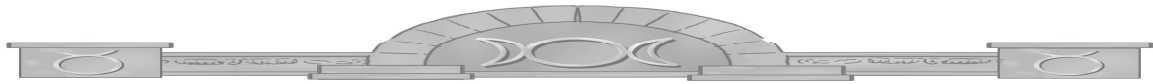

- Attracting spells
- Sex spells
- Summoning spells
- Love potions and other maintenance spells
- Fidelity spells
- Break-us-up spells
- Virility spells
- Binding spells

None of these spells come with guarantees. Even though many people on the internet guarantee results in a short time, etc, they may just be fooling you. No one can guarantee what life brings. If you are patient, you may understand the reason why some spells did not work for you.

Everything that happens in life is for a reason. We do learn quite a lot from most of our experiences. If we have not learned anything, the lessons will be repeated again and again. So it is best to think through all our experiences in life and do a thorough retrospection once in a while.

Everyone knows the urge that we feel when we are attracted to another person. All we want is to be with them, to talk and laugh and joke with them and may be even spend our life with them. However, it is not wise to act on impulse. It is so much better to know this person well before approaching them and discussing

more intimate matters such as love and attraction.

Desire is present in everyone and desire usually makes us desperate. Love makes us blind. We forget that the person of our desire may already be involved with another, may have just lost someone or may not be interested in our type.

If we are desperate enough to perform a spell on someone who is not interested in us, we may incur negative karma. If this person is ready for love, then it may be wise to just become friends first, find out if the time is right and then discuss it like adults. If we jump into conclusions and try to hasten the relationship, there is more chance of losing this person.

There are people who believe that we have at least five soul mates who come with us to this world. So if you have lost your soul mate, do not lose hope; there may be one coming to you just around the corner.

If you are desperate to find love, this is what you need to do:  
Keep your eyes open. See the good in everyone. Just because a person is too thin, too fat, too outgoing, etc. doesn't mean that they won't make good partners.

Do not jump to conclusions. A handsome or beautiful person will not make a better lover than an average looking woman or man.  
Look for people who make you laugh. You do have to live with them for a long time!

If they are not interested, try to stay away until them become interested.  
Meanwhile open up your mind to love from others too.

Don't get stuck on one person. If that person does not love you, you are stopping love from EVER coming to you through another.

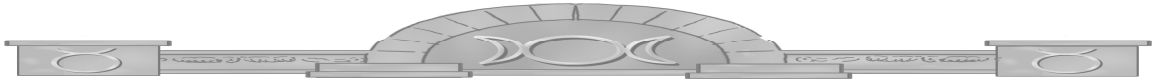

Do not force anyone with binding, summoning or other love spells. Anyone who is a practitioner of magick knows that there are repercussions to every negative spell. Also binding spells will sometimes bind you for a lifetime, so that you cannot get away from that person even if you wanted to.

As you can see, we have several options when it comes to Love, the emotion that gave birth to this world. When you yearn for love, the best thing to do is to love everyone in your world. Help everyone, be nice to everyone and treat them with dignity and respect. Soon your life will be filled with LOVE!

Brightest Blessings!
